10" LCD Hand Sanitiser

Floor Standing or Wall Mounted

Fixing points make wall mounting installation an easy solution – or optionally, a floor stand is available for a more mobile freestanding solution

Auto - Dispenser

Auto dispense via the built-in IR sensor. Clean, Safe and completely touch free to avoid cross infection. Number of dispensing times can be adjusted to 1, 2 ,3 ,4.

Internal Reservoir

An internal 3.6L reservoir provides up to 9000 pumps.
Optional dispenser heads provide hand foamer at 0.4ML, 1ml or 1.5ml

USB Plug & Play

Load your pictures and video onto a USB memory stick and then insert it into the display, the screen will then start playing the pictures and videos in a continuous loop

BS EN 1275	BS EN 1650	BS EN 13697	BS EN 14248
BS EN 1276	BS EN 1656	BS EN 13704	BS EN 14348
BS EN 1500	BS EN 13623	BS EN 13727	BS EN 14476

(All tests results published on www.sterizar.com)

Environmentally Green & Clean

- Contains 95% Deionised Water
- 100% Biodegradable
- Contains no irritants
- Non Flammable
- Ph level of 6.5-7.3

- Reduced carbon footprint
- Fully compliant with EU Biocide Regulations
- Manufactured under ISO 9001
- Tested to be safe on skin
- Not harmful to plants or animals

Composition & information on ingredients

- A blend of Surfactants, a core biocide, complexing agent, plus moisturiser.
  Active Ingredients < 5%

Handling and Storage

- Keep in cool, dry area. Do not mix Chemicals.

STATEMENT of FACT

Bleach on hard surfaces and alcohol based hand gels only give short term protection either on the skin or on hard surfaces, as their effectiveness stop working as soon as they dry.
With no long-lasting protection the treated areas are clear for bacteria and other microbes to quickly recolonise.
The speed of recolonisation of bacteria means that within one day a single surviving bacteria cell can reproduce up to 6 million new individual cells on untreated surfaces.

QUADVISION
LEADING EDGE AV SPECIALISTS

Quad Vision are leading edge AV specialists and are passionate about providing quality visual display solutions to our customers. Founded in 2006, we are technical specialists in our field and pride ourselves on supplying a highly reliable product, with top level ongoing support. AV system integration design and implementation is the core of our business, delivering technical solutions to a wide range of sectors. Quad Vision supply services and systems to a broad customer portfolio including SME's and multi-national organisations.

- The team design and build high quality LCD & LED video wall solutions for commercial and retail operations including interactive video displays.

- Digital signage is a specialism, together with the creation and ongoing management of content.

- We design, manufacture and install custom mounting frames for our video wall installations and a range of multi screen monitor desk stands.

- We're known for our exceptional installation and ongoing support services to our customers.

Consultation, Service & Support

The Quad Vision team adopts a consultative approach to projects, allowing each system to be designed and built to meet any specification or budget.

Our service, support and content management operation is of a consistently high quality. We understand the needs of our customers and have a continual improvement strategy in place.

What we do

- **Video walls** for retail, corporate & control and for that added WOW factor to any application.

- **Digital signage** allows a business or organisation to communicate with its audience in a visually engaging way and provides a method of sharing advertising, wayfinding, information sharing, marketing and brand messages.

- **Stands and custom frame solutions** not otherwise available off the shelf. Using our consultative approach we take into account the unique requirements of users and deliver a top quality, fit for purpose, strong, robust and ergonomic solution.
